Instagram. @GUSTAVOARTIST

Caracas, Venezuela, 8 de Septiembre de 1973.

Fernández mezcla con proeza una utilización cromática con el uso del relieve y de las texturas para ofrecerle al espectador una experiencia visual intensa, positiva y muchas veces tridimensional.

Su talento está justamente en reinventarse y buscar siempre empujar los límites, manteniendo una armonía casi espiritual.

Una experiencia visual cargada de imágenes, mensajes y símbolos que van mas allá del color.

Fernández se define así mismo como

"la obra que nunca se termina"

.

Fernandez blends prowessly a fine chromatic use with the application of relief and textures.

This offers to the viewer an attractive, positive and sometimes tri-dimensional visual experience.

His talent lies precisely in reinventing his work and always seeking to push all limits, while maintaining an almost spiritual harmony.

A visual experience full of images, messages and symbols that go beyond color.

Fernandez defined himself as

"The artwork that never ends"

EPIC

A JOURNEY FROM DARKNESS TO LIGHT

VISUAL ARTIST GUSTAVO FERNANDEZ
SOLO SHOW, Miami Florida.

Before reaching the canvas, I imagine each work.
The big challenge: translate it as close as I can to
what's in my mind.

In this process, some ideas are lost and others are
incorporated, it is a magical journey of personal
search with epic results.

The first solo exhibition of the artist Gustavo
Fernandez in Miami.

Fernandez shows us for a first time horses and
trees of life, colorful pieces full of movement and
strength that break the conventional format and
invade the walls with colors, messages, birds and
shapes.

Horses, trees of life, sculptures and abstract
colorismo create for the viewer a visual experience
beyond color.

[To find yourself you need courage, heroism and
effort] **BE EPIC**
